EREN CETINOK

Atlanta, GA | (404) 695-3344 | eren.cetinok@gatech.edu | www.linkedin.com/in/eren-cetinok

EDUCATION

Georgia Institute of Technology, Atlanta, GA — May 2029
Bachelor of Science in Computer Engineering

Global Leadership; GT SCLO; GT Medical Robotics; Silicon Jackets; DSGT; Product@GT

Bahcesehir Science and Technology High School, Izmir, Turkey — June 2025

GPA: 97/100; AP Scholar with Honor | AP Scores: Calculus BC (5), Physics 1 (5)

PROJECTS

Medical Robotics Club (Team Limbo) – Software Member — Aug 2025–Present

- Developing deep learning models using EMG and joint angle data for prosthetic hand control.
- Focused on data preprocessing, feature extraction, and model training for nonlinear motion prediction.

Independent Research – Colon Adenocarcinoma & Nanomedicine — Sept 2023–May 2025

- Led research team developing folic acid–targeted mesoporous silica nanorods for BHB-based cancer therapy.
- Designed synthesis protocol (CTAB, NaOH, TEOS), optimized drug loading, and planned EM trial phases.
- Collaborated with 9 Eylul University faculty and genome institute researchers on material sourcing and methodology.

iOS Club- Bootcamp Participant — Sept 2025-Present

- Learning Swift and Xcode-based app development; building a productivity app as final project.

Teknofest Robotics – Underwater Robot (Arduino) — Sept 2021–May 2023

- Built low-cost underwater robot; reduced component budget by 47% through hardware re-engineering

Ecoquerencia – Founder President — Jan 2023–May 2025

- Linked 4+ schools in collaborative digital sustainability efforts; led 30+ students on eco-service projects.

EXPERIENCE

Monrol Nuclear Products (Curium Pharma) – Summer Intern — Jun–Sep 2024

- Built Python/Excel tool for automated research data tracking and visualization.
- - Contributed to IAEA-compliant decommissioning plans for radiopharmaceutical facilities.

SKILLS

Languages & Tools: Python, Git/GitHub, Excel Automation, Arduino
Technical: EMG Signal Processing, Nonlinear Modeling, Deep Learning (Foundations), Experimental Design
Languages: Turkish (Native), English (C1), German (A2)

AWARDS

U.S. Medicine & Disease Olympiad – Silver Medal (2024), Teknofest Biotechnology – Top 13 Nationwide (2023)
British Biology Olympiad – Bronze (2024), High Honors & Academic Excellence (2021–2025)
